Subject: Email to Mike Greene, Veolia: re: DMRs for Elwha Water Treatment Plant
Attachments: WA0026662 Oct Nov 2015 DMR Preprint Specific Permits.rpt_Redacted.pdf

Hi, Brian.

We contacted Mike Greene, recently, asking him to enter DMR data for Turbidity and BOD5. However, based on Mike's questions and the unit reviewing the permit, we agreed with Mike's requests, described below.

Please take a look at the changes made to the DMR based on the email, and let Mike and me know if they need to be corrected. I gave him 2 months worth of DMRs with the corrections.

Thanks in advance, Brian.

Subject: Hi, Mike. re: DMRs for Elwha Water Treatment Plant

Hi, Mike.

It was good to talk to you the other day.

I did some research regarding your questions on the DMR parameters Turbidity (00070-7) and BOD5 (00310-7), as shown on your September 2015 DMR. We were able to remove 00310-7 from your DMR pre-print, but am still working on removing the Daily Min. entry for 00070-7 from our database. We hope to get it done in a couple of weeks.

In the meantime, please use the attached DMR forms for the months of Oct. and Nov. 2015. I removed ("marked out") the Daily Minimum block for Turbidity. Also, the increased font size in our EPA form makes it easier to view for data entry purposes.

Thanks, again, for contacting me.
